Planet Craft: Mine Block Craft is not just a game – it is an ever-growing universe shaped by players from across the world and you can join the fun and play along in this epic global adventure. The most recent update includes a plethora of exciting new content and features, such as the mini-game *Hunger Games* (<https://www.youtube.com/watch?v=x5rP-p90zJ8>), where the game map shrinks and players are pushed towards the center. The new mini game is already very popular! Try to survive and be the last one standing. A shield has been added to the game allowing you to block attacks like a pro and because two hands are better than one, you can hold objects and items using both hands. Friends can also be found faster with a makeover to the intuitive user interface, and you can teleport directly to their location. Clan invites are also made simpler and *Daily Quests* and *Achievements* just got better! *Quick Moves* are also a new addition allowing you to move everything from a chest to your inventory with a single click. More content has been added including new items like *Fungus* and *Saplings* adding to the fun, and the underlying engine has been improved making the game run smoother with better connections to servers worldwide.
