**Aerofly FS** challenges you to explore the world of flying with a large fleet of highly detailed aircraft with fully animated and interactive 3D cockpits and custom coded systems. Fly with complex airliners, helicopters, business jets, fighter jets and warbirds, general aviation aircraft, aerobatic stunt planes and even gliders across photorealistic environments. The game is tailored to players of all experience levels and is a true next-gen simulator with an easy to use and intuitive user interface as well as custom graphics and physics engines using state of the art technology such as 64bit support, multi-core processing, native Vulkan and Virtual Reality (VR) support, a real-time full multibody simulation and complex aerodynamics simulation. Some features may vary depending on version. Step into the flight deck of your favorite airliner or enjoy a relaxing cross-country flight in a warbird. Discover new places by flying one of the many custom missions or become a virtual airline pilot and choose from tens of thousands of real-world airline flights. Track your career progress with the new flight-log feature or try to obtain all achievements in all aircraft categories.

**Aerofly FS** gives you the opportunity to take the controls of a Boeing 747 Jumbo Jet, 787 Dreamliner, Cessna 172, Airbus A320 or zoom across the photo realistic landscape in the F-18 or F-15E fighter jets and explore the beautiful scenery in one of the many other aircraft. Explore the skies with stunning level of detail and a sophisticated flight dynamics model for the maximum realism. A full list of flights and extensive feature list is available from <https://www.aerofly.com> and several DLCs have been released adding additional content and features!
