'Soulknight Survivor' Coming To PC Via STEAM™ Challenges You To Collect Souls From Hordes Of Dangerous Enemies

Action-Packed Hack'n'Slash Roguelite Bullet-Heaven Game Coming Soon!

Schorndorf, Germany, September 11th 2023: Indie game developer *Stefan Elser* publishing as *SE-Development* is proud to announce December 1st as the official worldwide release date for his upcoming action-packed roguelite slasher-game **Soulknight Survivor**. Coming to PC via STEAM™, the game is the developer's most ambitious title to date and challenges you to fight against hordes of enemies and collect their souls to gain special soulpower attacks in a hostile top-down environment.

Game Trailer:

<https://www.youtube.com/watch?v=5mSBb2EIWg0>

Soulknight Survivor is packed full of content and exciting features, such as the ability to craft new powerful equipment and upgrade the buildings of your hometown. There are five maps to master, each lasting 30 minutes of gameplay, and you can aim your weapon in all directions with your mouse or the right stick on your gamepad. The souls you collect can level up your hero protagonist and are not just used to fill your soul-power bar and unlock powerful attacks inside an area. They can also be used to level up your stamina, strength, health, and stamina regeneration in the long term. Enemies drop random loot chests with tasty resources and procedurally generated weapons and armor. You can craft powerful weapons and armor at the forge with the collected resources, such as copper, gold, iron, and wood; increase your blacksmith skill to become a master blacksmith!

Soulknight Survivor includes dozens of achievements to collect, and each level within the game can be played in four difficulties. The higher the difficulty, the higher your chance for better loot. Furthermore, each difficulty has four medals to achieve for surviving 5, 10, 20, and 30 minutes.
