

Fast-Paced Supersonic 'Synthwave Racers' On STEAM™ Offers The Ultimate 3D Sci-Fi Kart Racer With Retro Vibes

Thrill-Seekers Have Discovered Their Ultimate Ride!

Irvine, CA, August 10th, 2023: Indie game developer and publisher *Corrtex Games* is proud to announce the worldwide release of their debut game **Synthwave Racers**, a remarkably fast-paced supersonic 3D Sci-Fi kart racer with retro vibes bringing a mashup of Mario Kart®, Super Monkey Ball®, and the synthwave music genre! Available on PC via STEAM™ today, **Synthwave Racers** has exciting and cool features such as a Single-Player campaign, Online Multiplayer Mode, and more than an hour of original Jammin' music tracks.

Synthwave Racers challenges you to compete and race at hypersonic speeds. Drift through physics-defying courses taking out your opponents from the track; customize your Rider. Jam out to melodic Synthwave music tracks. Play alone offline, race your friend's ghosts, or duke it out online against other players across the world! Become a fearless rider as you drive through winding cyberpunk cities, freezing mountains, and treacherous rings of planets. Crash and Burn until you Crash and Learn. Become the thrill-seeking speed junkie you've always wanted to be!

Synthwave Racers defy the laws of physics: drift, twist, and turn for your life through physics-defying tracks. Corkscrews? No problem! Loop-de-loops? Of course. Gravity Switches? Naturally! A time-stopping power-up? Absolutely! And plenty more. You can opt to play *Race* and *Battle* modes online against AI bots and other players worldwide. You may also race asynchronously against your friends by downloading each other's time trial data. Reach the top of your friends list for the ultimate bragging rights.

Synthwave Racers offers plenty of customization: you can unlock Rider skins, bikes and karts, engines, nitrous particles, and even horns, all through completing challenges and finding hidden unlockables in-game. You can be a chicken, driving a shopping kart with electricity coming out of their car and burping when honking their horn. What more could you wish for?!?
